

College Town Boy

Dent May

Meet me in the townie bar
For happy hour he said

See him playing electric guitar
Drunk and alone on his bed

He's smoking reefer every day now
His tastes are awfully high brow

College town boy
Get off your ass and do something
College town boy
How does it feel to be nothing?

No I'm only hanging 'round here
Until grad school he swore

Oh he's lived all over this town
He's worked in every store

There must be something in the
Water here
There must be something in the
Beer

College town boy
Get off your ass and do something
College town boy
How does it feel to be nothing?

Since graduation day he feels
Like a fraud

He still regrets he never studied abroad
He's never been to Paris
Never to Prague
Oh my God

College town boy
Get off your ass and do something
College town boy
How does it feel to be nothing?
How does it feel to be nothing?
How does it feel to be nothing?

I wouldn't know
