

I'm one small human on this big planet
Thinking of you
Spend time alone and I just can't stand it
What can I do?
But walk around this town like I'm stupid
Hoping that I run into you kid

We should probably talk
Because I think about you almost every day
I like to call you every now and then if only just to say
But honestly, I feel we both could use some company
I'm on my way, cause I live one life that I don't want to waste
I live one life that I don't want to waste

I'm one small fish in a great big ocean
Lost in the sea
Spend too much time wishing and hoping
You could love me
Well I can't help the spell that I'm under
So soon I might be dialing your number

We should probably talk
Because I think about you almost every day
I like to call you every now and then if only just to say
But honestly, I feel we both could use some company
I'm on my way, cause I live one life that I don't want to waste
I live one life that I don't want to waste

As long as the wind is blowing
I'll always have your back
Part of the thrill is just knowing
We're both alive, underneath this same old sky
I'm so happy I could die, I'm so happy I could die

We should probably talk
Because I think about you almost every day
I like to call you every now and then if only just to say
But honestly, I feel we both could use some company
I'm on my way, cause I live one life that I don't want to waste
I live one life that I don't want to waste
I live one life that I don't want to waste
I live one life that I don't want to waste
I live one life that I don't want to waste
