

# Crying Laughing

Dent May

Well I guess we had it made  
In the shade back then  
Falling in love and living it up, ooh  
We went our separate ways  
That's ok, I'd do it all again  
(We're still cool)  
My God, it took a while  
To ease this heartache  
Still can't help but smile  
Such a beautiful pain  
It goes on and on and on, yeah

I'm feeling so good it really hurts  
(I can't stop) crying laughing  
Crying laughing  
I've never felt better, never felt worse  
(I can't stop) crying laughing  
Crying laughing

Well I know we both moved on  
Love is gone, I've been  
Spending some time just living my life, ooh  
When I think back on those days  
Such a shame we threw it all away  
(We were such fools)  
We had our ups and downs  
And we gave it some space  
I'll see you around  
No one could take your place  
It goes on and on and on, yeah

I'm feeling so good it really hurts  
(I can't stop) crying laughing  
Crying laughing  
I've never felt better, never felt worse  
(I can't stop) crying laughing  
Crying laughing

I'm feeling so good it really hurts  
Crying laughing  
I'm feeling so good it really hurts  
Crying laughing
