

Heaven On Wheels

Dent May

One thousand miles per hour
Earth is spinning round
With several million horsepower, you're making my heart pound
Travelling faster than a sunbeam
Down the highway of my dreams

Windows down, breeze blowing through my hair
Feel so fine, bless you my

Heaven on wheels
You get me where I wanna go every time
I ride with you day and night
Accelerate me gently through the stratosphere, love how it feels
Heaven on wheels
Heaven on wheels

Out on a permanent vacation
Chasing warm summer air
Classic rock radio station
Playing living on a prayer
Lord knows that I was patient
Waiting for a love so rare

Windows down, breeze blowing through my hair
Feel so fine, bless you my

Heaven on wheels
You get me where I wanna go every time
I ride with you day and night
Accelerate me gently through the stratosphere, love how it feels

Heaven on wheels
You get me where I wanna go every time
I ride with you day and night
Accelerate me gently through the stratosphere, love how it feels
Heaven on wheels
Heaven on wheels

Heaven on wheels
Heaven on wheels
Heaven on wheels
Heaven on wheels
Heaven on wheels
