

Let's Take It From The Top

Dent May

(Let's take it from the top)
(Start all over again)

Let's hit pause and press rewind
Leave the here and now behind
Everything is happening so fast
So lead me in the right direction
Take me to a new dimension
Show me something real that's gonna last

Turning back the hands of time
Start it over once we're through
Putting my heart on the line
There is nothing we can't do

(Let's take it from the top) take it from the top, yeah
(Start all over again) start all over again
(Let's take it from the top) take it from the top, yeah
(Start all over again) start all over again

Your vibrations and affection
Take me back to the beginning
Continental shifts on Pangea
Lost in the Garden of Eden
Cradle of civilization
Creation Mesopotamia

Turning back the hands of time
Start it over once we're through
Putting my heart on the line
There is nothing we can't do

(Let's take it from the top) take it from the top, yeah
(Start all over again) start all over again
(Let's take it from the top) take it from the top, yeah
(Start all over again) start all over again

(Let's take it from the top) let's bring it back to where we started out
(Start all over again) let's bring it all the way back
(Let's take it from the top) let's bring it back to where we started out
(Start all over again) let's bring it all the way back
