

Tell Her

Dent May

Don't know how to say what I'm feeling
Only how to feel what I'm dreaming
Only want to say that I need her
But I'm paralyzed
When I look in her eyes

Say what you feel
When she holds you through the night
Say that it's real
You must tell her all the time
Tell her all the time
Tell her all the time

Don't know how to feel good without her
Only how to dream good about her
Only want to say that I'd like to
Be in paradise
As I look in her eyes

Say what you feel
When she holds you through the night
Say that it's real
You must tell her all the time
Tell her all the time
Tell her all the time
Tell her
Time
Time

Say what you feel
When she holds you through the night
Say that it's real
You must tell her all the time
Tell her all the time
Tell her all the time
