

Time Flies When You're Having Fun

Dent May

Walk through a memory
The clock reads five but it's upside down
Traveling in a fantasy
Trust the illusion

Light flash through the camera lens
The moment's gone, stuck in past tense
Far from reality
Trust the illusion

Time flies when you're having fun
Time flies away
And you can't go back, the years are long gone
Tomorrow is another day

Lost in the strangest dream
I'm not myself, feel like someone else
Watching life on a movie screen
Embrace the delusion

Time flies when you're having fun
Time flies away
And you can't go back, the years are long gone
Tomorrow is another day

Ooh la la la
Ooh la la la
Ooh la la la
Ooh la la la

Ooh la la la
Ooh la la la
Ooh la la la
Ooh la la la

Time flies when you're having fun
Time flies away
And you can't go back, the years are long gone
Tomorrow is another day

Time flies when you're having fun
Time flies away
And you can't go back, the years are long gone
Tomorrow is another day

Time flies when you're having fun
Time flies away
And you can't go back, the years are long gone
Tomorrow is another day
