

Wedding Day

Dent May

Ever since you were a good little girl
Mama said you need a boy in this world
Now your sister's getting married today
Now listen, there's a man on the way

Don't worry babe
Your wedding day
Is gonna come some day
Hold on
Just look around
All the boys in town
Are in line to dance
With you girl

Ever since you had your first kiss at school
You've been searching for somebody that's cool
Spent your weekends watching TV at home
Well listen, you will not die alone

Don't worry babe
Your wedding day
Is gonna come some day
Hold on
Just look around
All the boys in town
Are in line to dance
With you girl

Wedding day will come
Wedding day will come
Wedding day will come

Don't worry babe
Your wedding day
Is gonna come some day
Hold on
Just look around
All the boys in town
Are in line to dance
With you girl

Don't worry babe
Your wedding day
Is gonna come some day
Hold on
Just look around
All the boys in town
Are in line to dance
With you girl
