

## Deserve It

DENÝ

Babe you know I got some issues but  
You can wipe my tears like dem tissues, uh  
Always on my brain  
Say you get the same  
Chills when I look at you  
I get the vibes  
Stuck on my mind  
Like you're some gum I chew

Flavor's always perfect  
And I know that baby you are always worth it, yeah  
Sometimes you drive me crazy  
But I like it how it feels like a fantasy

I like the way you work it  
Poppin' cherries on some wine  
Sippin' on it  
Wanna give you everything 'cause you deserve it  
Wanna give you everything 'cause you deserve it

Baby boy you perfect  
You love all my curves and  
Ooh the thought of you without my side  
Just makes me nervous  
Your love's what I'm yearnin'  
Do anything to earn it  
Wanna give you everything 'cause you deserve it, no
