

# Burn It All Down

Denzel Curry

This ain't where the legends come from  
You're not what a hero looks like  
Pretty little flower, won't you sit back down and go play nice?

Keep talking, keep laughing  
One day you'll wish you hadn't  
All the people want fire, fire  
Maybe it's time they meet their dragon

If you're gonna hold me down  
And you're not gonna let me in  
Into your castle walls  
None of you can keep them

'Cause if I gotta  
Bu-bu-burn it all down  
Then we'll burn it all down  
My oh my look at who ends up bigger this time  
And if I gotta  
B-b-break it all down  
Then let's break it all down  
Bye, bye, bye  
Playing with fire  
And we'll burn it all down

This is where the bruises come from  
This is when the game gets ugly  
These blood, sweat, tears keep running  
Licking my plate 'cause I'm so hungry

Keep talking, keep laughing  
One day you'll see what happens  
All the people want fire, fire  
It's about time they meet their dragon

If you're gonna hold me down  
And you're not gonna let me in  
Into your castle walls  
None of you can keep them

'Cause if I gotta  
Bu-bu-burn it all down  
Then we'll burn it all down  
My oh my look at who ends up bigger this time  
And if I gotta  
B-b-break it all down  
Then let's break it all down  
Bye, bye, bye  
Playing with fire  
And we'll burn it all down

I've dealt with all types of fascists  
Started a faction, stuff that I only imagined  
Digital action, none of us lackin'  
Tuck it right under my fabric  
Frabbin' my sword, then move like an Aston  
Hudrlin' mystical hatchets, oh yeah

For all my enemies danger is imminent  
Soon as we go in, yeah, deal with adrenaline  
Time to get ill again, then we start rollin', yeah  
See all these opps, they all gon' drop, they burst and float away  
These burning flames around my heart, so y'all gon' burn today  
Feel like Rambo, snap and arrow and pull it  
Man, ain't nothin' to it, I'ma reign supreme  
Set the scene in gasoline fluid  
Burnin' like furnaces, I'm gettin' turbulent  
No one's impervious, your end is permanent  
Sendin' subservient servants to suffer a fiery grave at it's earliest, buried it

'Cause if I gotta  
Bu-bu-burn it all down  
Then we'll burn it all down  
My oh my look at who ends up bigger this time  
And if I gotta  
B-b-break it all down  
Then let's break it all down  
Bye, bye, bye  
Playing with fire  
And we'll burn it all down
