

## FALSE GODS FREESTYLE

Denzel Curry

Blood in, blood out

I'm seein' illusions lookin' at time, it's barely movin'  
Let me unwind, all the confusion's stuck in my mind  
Lettin' me break up or watch it divide  
As I see another part of me that's hard as me  
See the other side is callin' me the God in me  
Split personalities, split my reality  
Life is a bitch that I fuck, beastiality  
Might be your fault if you fall from fatality  
Pull out Excalibur, call up the cavalry  
I can change the way that people think by using alchemy  
Homie, I'm a God, you're gon' tell me that it's blasphemy?  
I'm just telling people that I'm more than a human being  
Every day a nigga's fit fresh, call it Listerine  
I don't give a damn about your jewelry  
What are you, just another fool to me?  
Daily never dealin' with the coonery  
Feelin' like the end is coming soon to me  
Everybody dies, everybody lives  
In the nightmares, I stare at the motherfucking light  
Everybody dies, everybody lives  
In a nightmare, I stare for the new inside
