

Lonely Man

Denzel Curry

Okay, cool

We gotta do this shit on the one (Yurr), alright

You want me to count it down or you wanna count it down? (You got it, you got it)

I got it? Okay

And a one, two, one, two, three

Once again, you're on your own

Lonely man, nobody can

Reach through your shell and know you well

To give you light where there is night in the city
