Wipe off the blood off my kicks
I wash and I rinse, I do it like this, too fresh
Tight as the tug on my clinch
I got me a grip, I made for my quick finesse
Niggas always "What you checkin' in?"
And they checkin' on you soon as you get a check
They always told me more money, more problems but when I was broke they gave me shit for less (For less!)

Whether it's earth wind, or fire, you out of your element
My reign a terror, it's not for the weatherman
Curry the killer, Aquarius'Killa, that nigga been levelin' up
Denzel the ultimate, call me Big Ultra
ULT coming through, swarmin' like vultures
Dead to opposers and those that are posers
Givin' out smoke and we passin' out rovers

Ah, yeah, never let no nigga trick ya'll for the streets
Gotta watch all these damn fools, tryna play cool
Then go with they move, you know what I'm sayin'?
Every whip we in, scrapped up with dark tint, ya dig?
I'd rather be judged by twelve, then carried by six
