

Focus

Deorro

Baby let me focus
I'm gravitatin'
And I don't even know your name
Focus
You're intoxicatin'
I'm faded in a blurry haze

Nice to know you're feelin' this connection
You should know it goes in both directions
Focus
There's a million other things goin' on
Lemme focus on you

Drop it, drop it, drop it hot

Know I got a winnin' hand
I ain't gonna fold it
I'd bet it all on you
Met an angel here on earth
And I wanna hold it
What we got to lose

People make it complicated
It's hard to find the words to say it
Once you do you're feelin' naked
I look at you and I'm blurred out, blurred out

Baby let me focus
I'm gravitatin'
And I don't even know your name
Focus
You're intoxicatin'
I faded in a blurry haze

Nice to know you're feelin' this connection
You should know it goes in both directions
Focus
There's a million other things goin' on
Lemme focus on you

Drop it, drop it, drop it hot

Okay now here we go
