Tell me why all my friends are all around me
They're all around me
Tryna get me drunk
Tell me why all my friends are all around me
They're all around me
Tryna get me drunk
Tell me why all my friends are all around me (are all around me
)
They're all around me (are all around me)
Tryna get me drunk

I try to describe
The feeling I get, get, get, get...
Fuck it, I'm down for another one
Yeah

Tell me why all my friends are all...
Tell me why all my friends are all around me (are all around me
)
They're all around me (they're all around me)
Tryna get me drunk

I feel as if you and everybody else
Just wanna see me fucked up
Just fucked up, up, up, up...
Fuck it, I'm down for another one
