

# People Are Good

Depeche Mode

Keep telling myself  
That people are good  
Whisper it under my breath  
So I don't forget  
Keep fooling myself  
That they do all they can  
Sometimes they simply slip up  
But it's not what they meant

Heaven help me  
Heaven help me  
Heaven help us  
Heaven help us

Keep reminding myself  
That people are good  
And when they do bad things  
They're just hurting inside  
Keep fooling myself  
That everyone cares  
And they're all full of love  
It's just their patience gets tried

Heaven help me  
Heaven help me  
Heaven help us  
Heaven help us

Everything will be alright in time  
It will be fine

'Cause people are good  
Whisper it under your breath  
People are good  
Keep fooling yourself

People are good  
Whisper it under your breath  
People are good  
Keep fooling yourself

Ah, people are good  
Whisper it under your breath  
People are good  
Keep fooling yourself

People are good  
Whisper it under your breath  
People are good  
Keep fooling yourself
