

# Come Give Me Love

## Deportees

I've got a friend  
Who lives a mile down the street  
I want her close to me each time we meet  
I've got a friend she gives me a reason to cry  
I hate to say goodbye

So when my ears can no longer hear  
When every rainbow is reflected tears  
When times get silent I can only pray  
Come give me love, come give me love

Come give me freedom  
Come give me peace  
Come consolation and mind at ease  
Come give me loving  
Come give me hope at the end  
And I will smile again

I know a place nearby where we use to go  
To spend some time alone when the nights are cold  
I've got a friend she's only a heartbeat away  
We said goodbye today

So when my ears can no longer hear  
When every rainbow is reflected tears  
When times get silent I can only pray  
Come give me love, come give me love

Come give me flowers  
Come give me trees  
Come give me rivers  
Come give me seas  
Come give me loving  
Come give me hope at the end  
And I will smile again

Come give me wisdom  
Come give me trust  
Come give me pleasure  
And times of lust  
Come give me loving  
Come give me hope at the end  
And I will smile again

When all my fingers can no longer feel  
And when my eyes are too weak to see  
When times get rougher  
I can only pray

Come give me sunshine  
Come give me rain  
Come let you hair down  
Release my pain  
Come give me loving  
Come give me hope at the end  
And I will smile again
