

## Medicate It Right

### Deportees

Man, you're running rampage in your blues  
Your violence is a violence that talks through your shoes  
You never had a place in this design  
You never had a home in the gloat of their eye

Everywhere you go you bring a war  
The rulers will be ruled when you knock on their door  
I wonder what it takes to split the night  
One is dark, the other one is dark with a light

I think you need to medicate it right  
I think you need to medicate it right  
I think you need to medicate it right  
What is this thing that you become at night  
Let the wolves prey on the wolves and the weak shall inherit the earth  
Let the wolves prey on the wolves and the weak shall inherit the earth  
Let the wolves prey on the wolves and the weak shall inherit the earth  
Let the wolves prey on the wolves and the weak shall inherit the earth

Axes from your eyes, they killed the blue in mine  
I guess I need to learn how to move in time  
Whether time is gonna bring us to a change I don't know  
Stay here and evolve, I will escape and let go

You don't need to medicate it right  
You don't need to medicate it right  
Well you need to medicate it right  
What is this thing that you become at night  
Let the wolves prey on the wolves and the weak shall inherit the earth...
