

## Performance After the Show

Depswa

You get in, you put out, cause that's what it's about  
You know how to make them feel good yeah  
There's no way to say no when you're ready to go  
And no touch is ever too much yeah

And you trade all your innocence for all the numbers and people  
you know in the scene yeah  
Will they all remember your name after years have gone by and n  
obody wants you anymore?

It feels good to belong and you know all the songs  
That they play and make you feel right yeah  
And you tell all your friends there's no means to an end  
Cause they need you and know you by name yeah

And you feel that in time you will be just as famous and known  
as the people you've done yeah  
But the truth is that nobody wants you 'til the lights have gon  
e down and you wait for them after the show

She's a queen in the heat of the night  
Cause her moves are so clean outta sight  
And she's a superstar that's ready to blow  
And the performance that's after the show

She's a queen in the heat of the night  
And she knows how to make you feel right  
And she's a superstar that's ready to blow  
And the performance that's after the show

She's a queen in the heat of the night  
Cause her moves are so clean outta sight  
And she's a superstar that's ready to blow  
And the performance that's after the show

She's a queen in the heat of the night  
And she knows how to make you feel right  
And she's a superstar that's ready to blow  
And the performance that's after the show

Ohhh yeah  
I think I see her coming now  
All dressed up looking good  
Yeah you can tell she's a star  
And I think tonight  
Yeah she's gonna BLOW!!
