

The One Before Me

Derailers

I can see he's heavy on your heart today
Just leave his baggage outside your door
It's time to put all those old thoughts away
You don't have to go there anymore

[chorus]
You're thinking 'bout the one before me
I'd never do you that way
Stop thinking 'bout the one before me
This is now that was yesterday

That old wardrobe in your hearts closet
Is full of rags that don't belong to me
I'll fill up the space the past is taking up
With a love that fits us perfectly

[chorus]

[lead 5 measures]

[bridge]
Love me like he never ever came your way and
I'll be the one who'll be around today

[chorus]
You forget about the one before me
I'd never do you that way
Stop thinking about the one before me
This is now and that was yesterday

Stop thinking about the one before me
Forget about the one before me
Stop thinking about the one before me
