Derdian

Nightfall, shadows of suspects in me!  
Golstar, traitor of Derdian I feel!  
For the revolution of rage, my Lord - will not have me!  
From the cradle to the grave - I will hate!  
(and) I must investigate, betrayer!  
Liar! - Traitor! Bastard! I'm your Master, I will punish you!

Voices from my people say -- Golstar used to go at night to Astar  
They say he used to conspire - with the King of Garrold against me

So I'm thinking for a punishment  
He's a creature so false  
So I'm the tyrant of Derdian or what?

He should be on a mission to -- kill my mortal enemy, lord Raighon  
And instead he waste his time -- with that filthy female, named Loren

Paying his lack of devotion  
In the dark of a cave  
He will regret what has done in his own life

Let the evil come to me  
I want a human disaster  
I will find the most bloody revenge upon him - upon him  
I despise his behaviour  
In the dark he will suffer  
I'm the bringer of sorrow -- malicious I'll be, bad I will be!

I will destroy the things you love, you know I hate you  
This is the secret of my force, disaster all around I bring  
The walls of Astar will collapse, and burn forever!  
What kind of promise you received from Exentharr, the Astar's king?

I will kill him like Rodon  
Oh my dear bloody deed  
This is your destiny if you conspire against me  
I will kill him like Rodon  
Oh my dear bloody deed  
This is your destiny if you conspire against me  
Death, you'll suffer, this I'll offer, 'this is my dimension!

Nightfall, shadows of suspects in me! betrayer of my kingdom!  
You will try my own justice, vassal come here and listen!
