Our father in heaven  
I been praying for Your blessing  
I've been learning Your lessons  
I just need Your protection  
Help me watch for these bustas  
Help me watch for these suckas  
A lot of people say they love me  
I don't really even trust 'em  
They just know that I got the sauce  
They won't the recipe to try and rip it off  
They just trying find the secret to survive  
When everybody trying to kill you off  
I've been really on a mission  
Took the harder way, got a couple pennies  
Now I got em hot, smoking like a chimney  
That ain't see it coming God as my witness  
You gone have to listen, I am not finished  
Lord knows all wanna do is make Him proud  
But I'm finding out, half these people now  
All wanna do is tear you down  
They just wanna take your crown  
You gon' have to get your own now  
You gon' live with your choice now  
I could never let you hold me down

## Antigravity

Day ones only, no day 2s  
Watching always  
I don't even trust Mondays  
And my confidant is Yahweh  
Been to hell and back, all flames  
On the track going flambé  
Turn the city into Pompeii  
Feeling like I done seen it all  
Guess I'm learning from mistakes I made  
Turning lemons into lemonade  
Lemon pie, custard, and meringue  
I've been cheffing up every way  
Everyday, everyday  
Out here selling lemon everything  
Now I'm making lemon pound cake  
Hallelujah, Thank You Jesus  
I been learning everything is for reason  
Cooking with flavor, now you get eat it  
Even if you salty, still I gave you seasoning  
Trying to live l the life, I can give you secret  
Wash in the truth, rinse and repeat it  
Lotta people know the way and I done seen it  
Read it all the time but never get the meaning  
Never get the meaning
