

Flex

Derek Minor

Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check
I don't see no competition as of yet
It's just win after win, let me flex
Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check
Looked around and I ain't even seen a threat
It's just win after win, let me flex

Catching win after win after win
Once they handing me the trophy I'ma hit Carribean
I've been dunking in the game check the score it's only 10's
Had to come up from the bottom and I'm bringing all my ken
Yes I am
I been on top it
Don't even mean to flex you can not beat me I'm so positive
I'ma go to work and get a check then go deposit it
Try to put me on and give em the game they did the opposite
I been making history doing things they gotta document
Love the see me shining like the diamonds on my neck yea
Taking over now man y'all can prolly have it next year
Told me they was coming man I told em ain't no threats near
You go rookies only vets here

Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check
I don't see no competition as of yet
It's just win after win, let me flex
Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check
Looked around and I ain't even seen a threat
It's just win after win, let me flex

It's just win after win we keep winning
Every year I get a ring the world keep spinning
If they ever said I lost they was kidding
I put on my crown of gold
They ain't got no antidote
They still tryna get me back
What u think I'm aiming for
Flex like this u ain't as close
We came off of avenues
Just so we could battle you
We will make the travel too
Look back
I brought my whole hood back
We gone bring them goods back
Get me inna ring I have u wishing that u could tap
This ain't no facade cause we on top and we won't look back
I had to flex for that one

Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check
I don't see no competition as of yet
It's just win after win, let me flex
Shoot the shot, it's going on let me flex
And they saying I'm the best, let me check

Looked around and I ain't even seen a threat
It's just win after win, let me flex
