Derek Minor

I came in the game stuntin' on my haters  
Who would know I'd be praying for them years later?  
Man, was a rider went from being most wanted  
To signed to a label whose music is most wanted  
Some would say I came up, finally built my name up  
You doing pretty good, why you changing everything up?  
Let me explain, I've been forced through adversity  
I'll school you to the rules, it's Derek Minor University  
(1) Keep God at the center of your plans  
(2) Family is important, so be a man  
Life is more than whip-whippin' in the Benz  
And if they see you wrong then you better clean the lens  
I never planned to be on entertainment  
'Cause my family in the hood, y'all ain't seein' the pictures, I'm here to p  
aint it  
You lookin' for that bubblegum candy-coated, I ate it  
I gotta keep it real 'cause the truth you can't replace it

So climb aboard this plane please let me take you higher  
Let me take you higher  
Let me take you higher  
There'll probably be some turbulence but let me take you higher  
Let me take you higher  
Let me take you higher  
We know who's in control and I bet he take us higher  
Bet he take us higher  
Bet he take us higher  
PSA Volume 3, let my symphony take you higher  
And I'm no longer PRO, introducing Derek Minor

Ok I'm puttin' on for my city, New Jerus my home boy  
You can find me in Chat-town, in Cashville I roam, boy  
Shout out to BJ, the mayor of M-Town  
RMG, Reach Records, we shut this thing down  
What a world that we livin' in, I'm a let you know about it  
Dirty where we work, this time I flow about it  
My people going to jail, they ain't got no hope about it  
So I'm screamin' out Jesus, my faith in his throne around it  
116 what I claim, man we sorta like a gang  
'Cause we rep our set proud in the lanes where I stay  
Yellin' God over money, shot the Bizzle in the H  
And my name may have changed but the mission's still the same  
The Lord told me he making me something greater  
Scales gone from my eyes, I see the Savior  
If you don't like where I'm going, then give me prayer  
But I prefer you ride, let's see where this journey take you

So climb aboard this plane please let me take you higher  
Let me take you higher  
Let me take you higher  
There'll probably be some turbulence but let me take you higher  
Let me take you higher  
Let me take you higher  
We know who's in control and I bet he take us higher  
Bet he take us higher  
Bet he take us higher  
PSA Volume 3, let my symphony take you higher

And I'm no longer PRo, introducing Derek Minor
