

# Hold Up

Derek Minor

Now pay attention to me mayne  
Y'all lucky that I'm not hungry today  
I could put your favorite rapper on my plate  
But I would be starvin' an hour later  
Cuz nowadays is music lackin' substance?  
Is this the best that we come up with million dollar budgets?  
If you trying to hear the dope truth I got the plug then  
Get connected to source, I'm shinin' cuz I'm plugged in  
Hold up, wait a minute  
Boy you got me messed up!  
If you think that I'mma sell my soul to write a check off  
I'm just tryna write a verse so sick you need a check up  
And tell the homie God is real, so boy you keep your head up!  
This that motivation you gon need  
At the table with our enemies  
Napkin round my neck, and we gon' eat  
It ain't nothing you can do to me  
I was blind but I see now  
Lot of people tryna shut us down  
But I do it for the Kingdom now  
This redemption He gon hold us down!

I say hold up  
I been on my business  
Talkin' true like I'm in church, now tell me can I get a witness?  
I say hold up  
What you see is what you get  
And on the real I know they feel it  
Cuz I've always been authentic  
I say hold up  
You could never hold us  
If you think that we gon fold up  
Then I guess you do not know us  
I say hold up  
You might have to get me going out  
Cuz when I'm in it bro you know my teammates with me  
I say hold up

I thought I heard you tell me I had to sell out (I'm not for sale)  
But I'm still being me on stage at a sell out  
What's the point of being famous if I can't be the person that I was made to be?  
Shining the light of the Lord and a hundred percent Minor?  
That's okay to me  
I came up from nothing, I'm leaving with nothing  
2000 like Kobe, I shoot at the buzzer  
That negative wave, end the discussion  
Kill all the hate and not leavin for budgets  
And whatever calls, so I gotta ball, what you tryin to say?  
I call that bull, and it's Michael Jordan, watch it fade away  
Money and power, money and power  
So infatuated, with this  
Money and power, money and power  
You can't take it with you homie  
Don't you let it kill you homie  
You know I feel you homie  
Let's keep it real homie

Can I keep it real homie?  
Some of us not living life we just breathin to death  
Knock on the world in your life time then tell me what's left  
One legacy, when I die will y'all still remember me?  
I just pray that I'm real as real could be  
Show y'all what reflect greatness means  
Til then boy

I say hold up  
I been on my business  
Talkin true like I'm in church now tell me can I get a witness?  
I say hold up  
What you see is what you get  
And on the real I know the feeling it  
Cuz I've always been authentic  
I say hold up  
You could never hold us  
If you think that we gon fold up  
I guess you do not know us  
I say hold up  
You might have to get me going out  
Cuz when I'm in it bro you know my teammates with me  
I say hold up

I say hold up  
I say hold up  
I say hold up
