

Candy crush flow unlocked a new level
And I am burying beats, I got a new shovel
You trying to win this rat race but get no medals
My only competitions Minor, but the battle's large
So either way I know I still won
Still bragging on the father like a proud son
That's the only solution to fix where I'm from
Drunk off violence and they taking shots of red rum
That ghetto life, like rick james
My beats sound like what the five fingers say to the face slap
They like, why you so aggressive, I guess it's
That's Michigan in me, that country Tennessee in me
But I am ok for your pupils, I'll just open up their pupils
Two things that's very crucial, I'm safe I'm not unusual
That's my, I'm not a scary black guy tone
I'm in my zone, let's get it on, I'm bout to kick it off like judo

Judo [x4]
I'm bout to kick it off like Judo
Judo [x4]

I reflect God and his greatness
And I'm going harder than the pavement
Still underground like a basement
This year all my dogs going crazy
Create in the image of the great one, so you could never make
I make em get another appraisal when if they underestimate us
Let's go ahead and get it crack a lackin. hit the booth I'm like a yellow jacket
Spit ammunition when I get to snapping, like a yopper yopper, Get to yaking, yaking
Another one like DJ Khaled, a major key, to make the heat, to make em sing
They make believe, I hear all the lies they make up, Maybe it's maybe lliene
Like I'm a do it all for what the paper bring
I'm not be your slave, you ain't chaining me
Promise I'll die for what I believe
Go head take a shot, go on aim at me
I tell, what I'm told, in the text, that I read
Just like it is I don't filter a thing
Nothing's off limits, you won't box me in like a Christmas present
Better get the message who
I'm Jackie chan, I'm jet Li, this my dojo
Bruce leroy with no fro, RMG in go mode

Judo [x4]
I'm bout to kick it off like Judo
