Derek Minor

We finna lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Hustle I gotta make plays uh  
Try to keep up with the pace uh  
I shoot the shot I got range uh  
End zone I'm winning the game  
We finna lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in

Locked in, top 10 let me pop in  
Try to name a best bracket I'm not in  
My time, that's money clocked in  
You're dirty, get mopped then  
Clean up on Aisle 3 when I eat  
I get too messy on a beat  
I see why they panicking, we got em stuck like a mannequin  
Bre said be careful don't snap again

But really I tried  
I try to stay focus  
I hustle like 7 day notice  
I wake up when I feeling hopeless  
Nights I was lonely  
But I wasn't soulless  
I locked in and it came with a bonus  
Either move bold or you bogus  
Froze bite got the coldest  
The youngest but move like the oldest  
Aye ...domino effect time to dominate  
Tryna steal traits better concentrate  
Aye this for the books find another date  
Bout to dup dup dup on your duplicates  
These days are beautiful  
Tryna stay suitable  
We ain't the usual  
Positions is movable  
Hating and praying I think you delusional  
I got it tho

We finna lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in  
Hustle I gotta make plays uh  
Try to keep up with the pace uh  
I shoot the shot I got range uh  
End zone I'm winning the game  
We finna lock in, we finna lock in, we finna lock in  
Lock in, we finna lock in, we finna lock in
