

## Love

Derek Minor

Uh, what up girl, it's been a long time  
Since I picked up this pen and told you I'm glad you're mine  
Forever together, nothing can separate us too  
And if love is scary, baby you my Boo  
First time I saw you my homies said I was crazy  
My mind is an art gallery, pictured you with my baby  
I took your hand as we walked through the sunshine, lady  
Said "get from under that tree, them other dudes are shady"  
See I was broke, didn't care about my profit  
So that sealed the deal, I looked for rings like signing  
You held me down in this love, I swear that I ain't forgot  
You deserve diamonds on your finger the size of Ring Pops  
And when my shoe was untied, they said the boy was trippin'  
She looked past it all, straight patient with him  
You a thief girl, you stole my heart  
I ain't goin' nowhere till death do us part

See we in love that's strong, what it mean  
She independent, but don't mind still calling me king  
They say it's old school for you to be my only queen  
Well if we primitive, you fly as Pterodactyl wings  
Uh, I know I do some things you don't prefer  
I'm a chiropractor, get all on your nerves  
We get in arguments, sometimes we say some hurtful words  
But through that, we see the way that Christ loved the church  
I'll protect you girl, your man's loyal  
And Lord have mercy on anyone who put they hands on you  
We one, and when they hurtin' you they hurtin' me  
Never wanna see you cry to me, that's an emergency  
Your superhero chop the dark night, Batman  
Or call me Superman, nothing like your X-Man  
I can't believe the Lord put this gift in my hand  
Bone of my bone, flesh of my flesh, woman
