

# Man

Derek Minor

Look me in my face, I'm a man  
If you talk behind my back, say it to me, like a man  
I never leave my family, they're my blood, I'm a man  
I never back down, I'm goin' out like a man  
Like a man, like a man  
Handle business like a man  
'Fore I live like a coward, I'ma die, like a man  
If I ever fall, I'll pick myself up, like a man  
And I pray to God, whew, face my fears, like a man

All I know is hustle (hustle)  
All I know is hustle (hustle)  
You ain't on your business, I don't know if I can trust you  
Oh I'm taking care of mine  
Look my children in the eye  
Tell em', you won't miss a meal, 'long as Daddy still alive  
I stand on my word, I won't take it back  
I'd die over mine, as simple as that  
So even if I don't get platinum plaque  
I build all my gold and then turn into scholarship ahh  
Ten toes down, always on the grind  
Look me in the eye, I don't play around  
Secure the bag and break it down  
Invest that home to build community  
I only buy from people down the street  
I eat, you eat, you eat, they eat, we eat  
I bring the sauce, bread and the cheese  
A pizza party all on me, scratch that all on God  
I'm blessed on blessed, can roll a Lex' with Rolex on wrist  
But my investment's by my estimate  
Leave a heritage to my testament

Look me in my face, I'm a man  
If you talk behind my back, say it to me like a man  
I never leave my family, they're my blood, I'm a man  
I never back down, I'm goin' out like a man  
Like a man, like a man  
Handle business like a man  
'Fore I live like a coward, ima die like a man  
If I ever fall, I'll pick myself up, like a man  
And I pray to God, whew, face my fears like a man

I am not your boy, don't you call me that  
I'm really a king I been on mission take my throne back  
Pull up on you like the liquor store, where the crown at  
They just go in circles try to stop me, that's a cul de sac  
All back in my bag and got it jumpin' that's a set race  
Shoot my shot like Reggie Miller, you can't match Pacer  
Uh yeah, if you been sleeping, I make a you a well  
I keep killin' checks they gon' leave me the chair  
My injects are lethal, My hustle is lethal  
I see like an eagle, they watch me like Vevo  
My movements will teach you, I'm here for my people  
Break it down, break it down, welcome to class  
Welcome to we ain't coolin' for a dollar  
Look inside the mirror, all I see T'Challa  
Revolutionary, Jesus or Apollo

Stand up like a man  
Stand up like a man

Look me in my face, I'm a man  
If you talk behind my back, say it to me like a man  
I never leave my family, they're my blood, I'm a man  
I never back down, I'm goin' out like a man  
Like a man, like a man  
Handle business like a man  
'Fore I live like a coward, ima die like a man  
If I ever fall, I'll pick myself up, like a man  
And I pray to God, whew, face my fears like a man
