

Never Stop

Derek Minor

Ballin like I'm supposed too
I ain't gotta flex, I wish your people would have told you
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top

Gotta re up
Gone call the shots then sit right back and kick my feet up
A lot of bosses at the table we gone eat up
Go ten for ten down in Miami we gone heat up
Just took that elevator straight up to the top
That light is green in front of me no I can't stop
Big underdog we took them chances beat them odds
They was sleeping now we got the game on lock
Now the work never stop end of break gotta clock in
Overtime I hustle we ain't get it for the low
Hit the spot got the drop lifting weights get it poppin
All that perseverance got me right I'm trained to go
Now I'm

Ballin like I'm supposed too
I ain't gotta flex, I wish your people would have told you
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top

Yea I done been in the deep
Know if you hit me it come with fee
All of this drip you can't get it for cheap
I hear the cap when you giving a speech
I'm at the top so they gunning for me
I gotta eat up so bon appetit
Lay all the sauce when I go on a beat
My competition it gotta be me
Drive in a civic then hop in a beamer
They bout to switch up and change the demeanor
Gotta keep goin I'm never defeated
I never join me so I had to beat em
Know who I am never could be em
Eat with the team and share the perdiem
Watch what I do but they never could see em
I'm taking risk bout to go on limb
I see what you on I'ma know when I met
I seek out the pray then I move like hyena
Yo flow is the nicest my flow is the meanest
I move like a king so they just looking to cheat em
I'm watching em watch us they looking and peeping
I go to the top then I take care my people
They throwing the shots ain't fading em either

Moving around and threading the needle

Ballin like I'm supposed too
I ain't gotta flex, I wish your people would have told you
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top, I can't ever stop
I can't ever stop, I can't ever stop
Till I reach the top
