

Off The Rim

Derek Minor

Off the rim, got it off the rim
Off the rim, got it off the rim
Made a play, got it off the rim
Off the rim, off the rim

I gotta rebound
I get money it's gold in my teeth now
Left Detroit and got lit up in t town
We the greatest they all at my feet now
On a mission to get it I need a ring
When my wrist get to flicking it's like a sink
That mean that's wet going thru the net
I'm selling out tickets a seasoned vet
I'm all up in Vegas they tryna bet
Told my brudda they foul so he brought a tech
And we in it for rings and it's nothing else
It's good that you dream cause I hope it help
Lil shawty a model she front row
If nothing I stand on my 10 toes
It's the season I booked up for 10 shows
U not really prepared cause it shows
Double cross fore skip thru the lane
Hope the winning don't get to her brain
I'm in lennox wit racks and a chain
Windows tinted you can't see a thang
Coming for us you a runner up
I'm the type to put water in double cups
I like when the odds against us
I write when the opps tryna switch up

Off the rim, got it off the rim
Off the rim, got it off the rim
Made a play, got it off the rim
Off the rim, off the rim

They acting mad then extra difficult
Coming at me fast and hyper critical
I cannot relax I'm making visuals
Coming at em back to back my vision grew
Here I go
It's time and to go make some plays
Then I just made the juke the shake and bake
Better go and check the film adjust your game
Finna hit they chest they gon respect the aim ya
Tighten your grip done with the fake and I shoot from the hip
I gotta million reasons I could have gave up but I promise that I never quit
Grind is legit
I got some bills and a family depending on me to go in
Skip a new friend
Cuz all my circle is working to help lift the burden the enemy's sending to
tempt
I had to tell em again what I meant
They never listen they lacking the sense
I give em two then they lose every cent
I keep a tool every room that I'm in ya ya
I promise I ain't lying fortifying
If they wanna pass a fist the peace is dying

If they wanna act polite I'll hold the violence silence

Off the rim, got it off the rim
Off the rim, got it off the rim
Made a play, got it off the rim
Off the rim, off the rim
