

Put In Work

Derek Minor

Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it
Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it

Hopped off the bench, and I'm dialed in
You can run a hundred yards, Imma be a mile in
I can hear the band play, you just get the violin
Swimming with the sharks, you gon have to meet leviathan, ha
I'm a beast in the game, out the cage like an animal
Snap, make a play, move the chains, I'm a natural (huh)
Whatchu saying? You think I'm irrational?
I foresee the profit, so that's cappin versus capital (huh)
Imma shoot my shot (yeah)
Imma hit the swish (yeah)
Imma blow this check (shhh)
Lemme make a wish (yeah)
Uh, I got too much passion to be pacifist
Surpassing the masses, there ain't no class for this, haha

Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it
Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it

Aye homie, you betta get out the way
Oh what a beautiful day
All in my zone, get outta my face
Put in the work, ain't comin ta play
Been all on my grind - now - for over a decade straight
Go and check the squad you'll see we playin' no games
And yo my three little kids need some food on they plate
And we got bills ta pay step in the way you get erased
I got three sixty five new days in a year
This dream don't move on itself, I ain't got nothin' ta fear

Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it
Less talk, more playing
Ya'll leaving, we staying
Put in work, put in work, put in work, put in work
Put in work, put in work, put in work, do it
