

# Right by My Side

Derek Minor

Right by my side

Aye you've been with me from day one  
You make everything better girl you A1  
Tryna spend my whole life with same one  
I mean spend my whole life till I ain't none  
Lately I've been out here makin' these moves  
But all that I got is nothing without you  
You the best tell Cali that I said so  
Had to make you mine when I seen you from the get-go  
You know that I'm in trouble if I ever lose ya  
So I'm out here cuffin' like a state trooper  
And we can do whatever you like it don't bother me  
Long as you on my arm like an IV  
I'm sick without ya

What's a castle without you in it  
It ain't nothin', no, it ain't nothin'  
And it don't feel right if you missin'  
I need your lovin', all your lovin'  
You belong right here, right by my side  
You belong right here, right by my side  
You belong right here, right by my side  
You belong right here, right by my side

Too broke for the horse and carriage  
But you've been so down for the kid I proposed a marriage  
Old boy, G card, I done turned that in though  
Said "H.I." to permanent, don't want no rental  
Baby, girl why you so loyal  
Only secret's victorian, never change up your story  
I never need to record my feelings, I vindicate  
You trippin' on me hard  
Somehow you done did it, you came before the squad  
You vote for me, I vote for you too though  
I choose to curb the ones that ain't you though  
I caught them feelings I used to just stuck on  
Without you here buildin' this empire's nothin'

I need you by my side  
And that's how it's supposed to be  
Cause me without you  
But that ain't gon' do, no way  
I need you by my side  
That's how it's supposed to be  
Cause me without you  
That ain't gon' do, no
