

# Right Now

Derek Minor

Yeah, yeah

I can't really let you in right now, right now  
'Cause I'm focused on the win right now, right now  
I don't need no new friends right now, right now  
In that system where y'all fail right now, right now  
Ooh, right now, right now  
All my dogs off the leash right now, right now  
Y'all got me going in right now, right now  
Where the muzzle  
Right now

Yeah, pullin' up in off-white (Off-white)  
On the plane to L.A. on the overnight (On the overnight)  
I can't worry 'bout y'all right now, right now  
'Cause my focus on Yah' right now, right now  
We are now free, can't put chain on me (Can't put chain on me)  
They got a stain on me (They got a stain on me)  
Look God grace on me (God grace on me)  
I came from the hood, I grew up in the woods (Yeah, yeah)  
You don't like me I don't care  
Now get that understood  
I'm back on my mission, my hope's like I'm vision  
My lyrics I'm killing, I don't even witness  
I'm done with pretending, don't ask for my penance it's none of your business  
Get out of your feeling, I know some people that say when I win it  
They spy the young boy work on his vision  
I got some family at home that's depending on me  
And they telling me to go out and get it

I can't really let you in right now, right now  
'Cause I'm focused on the win right now, right now  
I don't need no new friends right now, right now  
In that system where y'all fail right now, right now  
Ooh, right now, right now  
All my dogs off the leash right now, right now  
Y'all got me going in right now, right now  
Where the muzzle

Now it's a knife to a cannon in a standoff  
The stones in my chamber just might blow y'all head off  
If I put my cattle up on you it ain't fair dog  
And since I'm free, you gone have to take your hands off  
Derek they don't know, we been on a roll  
Out here we so cold, Yahweh in control  
Yeah, yeah, yeah  
Red light, green light, champion the team tight, huh  
Y'all can live the street life, talk about a team light  
I don't belong, if I have any choices, I'm glad that I found that in Heaven  
my home  
Don't got to believe this, I'm talking deceiving  
But Canon it's good I know where I belong, yeah

I can't really let you in right now, right now  
'Cause I'm focused on the win right now, right now  
I don't need no new friends right now, right now

In that system where y'all fail right now, right now  
Ooh, right now, right now  
All my dogs off the leash right now, right now  
Y'all got me going in right now, right now  
Where the muzzle  
Right now
