

Robin

Derek Minor

Where I'm from there ain't no heros
That made my decision easy like a free throw (swish swish)
Come up out your pocket so I'm poppin'
Ain't no Batman no I guess I'm Robin
Guess I'm robin, yea boy I guess I'm robin
Guess I'm robin, come up out your pockets
Guess I'm robin boy I guess I'm robbin
Guess I'm robin come up out your pockets

Open up the fridge, open up the fridge
Ain't nothing but old milk and rice again
Got like 10 more days until my check hit
I don't know how I'm about to feed my kids
Guess I grab a sip pull the drink off
Pull up on whoever until I die or hit my payroll
Rob this pharmacy give me the pills and don't you say no
REX is pointed at you and don't you move until I say so
Do you know what these Xannys get me on the street
Put it in the bag and leave before they call police
Too late I see cops surrounding me
Lying violence I'll take this armed robbery
Judge sent me away for like 20 years
I said I ain't have no options he ain't tryna hear
A menace off the street the system win again
But who's gonna save myself from my environment

Where I'm from there ain't no heros
That made my decision easy like a free throw (swish swish)
Come up out your pocket so I'm poppin'
Ain't no Batman no I guess I'm Robin
Guess I'm robin, yea boy I guess I'm robin
Guess I'm robin, come up out your pockets
Guess I'm robin boy I guess I'm robbin
Guess I'm robin come up out your pockets

Open up the fridge, open up the fridge
Ain't nothing but old milk and rice again
My mama on dope and she ain't here again
What we finna do my daddy in the pin
Guess I take the same route
They say college get you a job but that can't help me now
I don't see no super heros swoopin in with capes
So I'ma save us all, this mess is on my face
So I'ma save us all, and don't get in my way
I'm gonna put some food on all our dinner plates
And that's the trap, the system that we live in
Cause everyday death knock at our door and hope don't live hear
Let's pray for help tomorrow
Making our decision
Death will join our pops in prison
You either die a hero or live to be a villain
Who did the best he knew
But either way the cycle continues
