Derek Minor

Ahh

Ahh

New day, new motivation  
Same God, He ain't never changin' (G-O-D)  
Come get a vibe off my vibration (Vibration)  
Come get a vibe off my vibration (Vibration)  
New day, new motivation  
Same God, He ain't never changin' (G-O-D)  
Come get a vibe off my vibration (Vibration)  
Come get a vibe off my vibration (Vibration)

Got places I wanna be  
I know it starts with me  
I gotta see it through  
Come get a vibe off my vibration (Vibration)  
They can't take a thing from me  
This where I'm supposed to be  
I'm gonna make it through  
Come get a vibe off my vibration (Vibration)  
Yeah, yeah, yeah

Top-down, cruisin' I twenty-four  
Got the ball workin' wit' a fresh twenty-four hours  
Got it out the mud, had to let it grow  
Was holdin' on a couple grudges, had to let it go  
Cause if they knew where I was goin', would've stayed down (Would've stayed down)  
If they weren't so square, would've stayed 'round (Would've stayed 'round)  
I just got paid, picked up my bae  
We runnin' off for the day, yeah  
Y'all get off of my chest, yeah  
Way too blessed to be stressed, yeah  
This how it feel in your rest  
You want more to say less  
I'm in my bag, you want paper or plastic  
Visa or master, don't even matter  
This all in God's hands, He writin' the chapter  
Today we not worried, we goin' higher

New day, new motivation  
Same God, He ain't never changin' (G-O-D)  
Come get a vibe off my vibration (Vibration)  
Come get a vibe off my vibration (Vibration)

Yeah, yeah, yeah

Ha, catch a vibe  
Silence my doubt, and I humble my pride  
I know that my blessin' don't bank on my statements  
I spoke like a millionaire without a dime, yeah  
Tumultuous times, we're seedin' the malt and  
Define characteristic, I need it for this king to survive  
Evenly divided, I realized difference between bein' planted and buried alive  
So what I do?  
Branched out from the soil, but you the dirt though  
People them threw on my name to grow so  
Since the roots connected to the rock  
I ain't bound to bloom despite the season shown though  
This a celebration, it's alchemy the way I found gold in my devastation  
Then applied it to my elevation, though the my spirit's under renovation  
See God, and then that's my motivation

New day, new motivation (Motivation)  
Same God, He ain't never changin' (G-O-D)  
Come get a vibe off my vibration (Vibration)
