

# Visions from the Top

Derek Minor

I don't like the view from here  
No I don't like the view from here  
This mountain top is cloudy yeah  
And everything is not as clear  
This altitude starting to make me dizzy  
I can't tell my friends from my enemies  
I just see green the scenery is pretty  
Everything is calm  
Yeah everything is calm

Whoa oh oh oh  
Thought the higher up I got  
That the Devil would leave me alone  
Whoa oh oh oh  
Giving me everything I want for exchange [?]

I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this

They stab you in the back  
Smile in your face  
Been trying to avoid these Freddy Kruger handshakes  
See you in my nightmares your love calls pain  
Told me you my brother  
Yeah they say you was king  
It was way more simple when I ate off brand cereal  
People hit new lows when all they want is more materials  
It's probably my fault I always try to see the best of people  
You ain't gotta read the bible to see that we full of evil

Thought the higher up I got  
That the Devil would leave me alone  
Whoa oh oh oh  
Giving me everything I want for exchange [?]

I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this  
I have visions from the top now  
I might take the bottom over this

I tried I tried so hard so hard  
I, I, I've been waiting (waiting)  
I tried I tried so hard so hard  
Yeah, I tried I tried so hard so hard  
I tried I tried so hard so hard to come down  
Down, down, come down, come down  
Yeah, come down yeah woah
