

We On

Derek Minor

Whole team fly
Yeah we know it
Got the wheels in motion
Keep it going
Never stop
You can watch
Where we going
Cause we on
We on
We on

Whole team fly
And yeah we know it
Making plays
What's next
Where we going
I can see you on the top
Where you going
We on
We on
We on

Yeah yeah yeah yeah yeah
Yeah yeah yeah yeah yeah
Yeah yeah yeah yeah yeah
Yeah yeah yeah yeah yeah

Did not get one apology
Grinding so hard are you proud of me
Belly of beast it swallowed me
Didn't let the drunk days bottle me
Ride with no tent
So they can see
These days all I want is family
And the peace
Shout out the people that left me weak
Cause it helped me see
All I got is god cause people gone change
Like they supposed too
I don't know what they told you
I still clap for you
And I love you
Tryna think big outside myself
Seeing me in everybody
Hurt myself
Didn't give them room
To be their self
Happy to see you be yourself
Take away the pride
And all the lies
That made me feel protected
Done running from rejection
Changing all of my intentions

With the right impressions
Facing all of my depression
I'm done being the victim

For not being selfish
I don't even want no credit
I just want to know where I'm headed
So many times been tested
Failed every time but this time vested
Sleepless nights turned rested
Can't even lie this here's blessing
Emotions I was suppressing
With the climbing and progression

Whole team fly
Yeah we know it
Got the wheels in motion
Keep it going
Never stop
You can watch
Where we going
Cause we on
We on
We on

Whole team fly
And yeah we know it
Making plays
What's next
Where we going
I can see you on the top
Where you going
We on
We on
We on

Yeah yeah yeah yeah yeah
