Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

In Eighteen Fifty we were told  
They found the end to the rainbow  
It's out there for the brave and bold  
Waiting down in Bendigo

Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

The road ahead was long and tough  
When me and Billy saddled up  
We had finally had enough  
Of drinking from the poor man's cup

Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

Me and Billy dug and dug  
And gave it everything we could  
And all we found were rocks and mud  
Yeah we would fight like wild dogs would

Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

One bright morning we did find  
A hundred pieces of sunshine  
And Billy seemed to change his mind  
He pulled his gun said "That Gold's Mine"

Another day some other soul  
Will dig here for the precious gold  
But all that's buried in this hole  
Is the secrets Billy left below

Oh, Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

Oh, Bendigo Bendigo digging high digging low  
There's gold there on the streets you know  
If you go go go to Bendigo

If you go go go to Bendigo

Let's go
