

Dancing In The Moonlight

Derek Ryan

Hey baby let's go for a ride
Let's take the Chevy to the countryside
Leave those city streets behind
You and I dancing in the moonlight
I know a place where we can go
Put some country music on the radio
While the stars are in the sky
You and I dancing in the moonlight

Love is in the air
Don't it make you smile
When we're dancing in the moonlight
Yeah, let me take you there
Yeah, we're living for tonight
You and I dancing in the moonlight

Yeah, love is in the air
Don't it make you smile
When we're dancing in the moonlight
Yeah, let me take you there
Yeah, we're living for tonight
You and I dancing in the moonlight

Hey baby let's go for a ride
Let's take the Chevy to the countryside
While the stars are in the sky
You and I dancing in the moonlight
And when you fall into my arms
I've never danced before but baby you're the one
The sky has never seemed so bright
You and I dancing in the moonlight

Oh let's dance
Oh baby now
Let see now
Yeah we're dancing in the moonlight oh
Come on
Oh oh
Dancing in the moonlight yeah

Let me take you dancing

You and I dancing in the moonlight
You and I dancing in the moonlight
Yeah
