

# Everywhere With You

Derek Ryan

I have wandered out of sight  
Felt the cold of city lights  
In countries far and wide  
With strangers by my side  
I was only passing through  
Inside I always knew  
Anywhere, oh, anywhere  
Is everywhere with you

The sun won't always shine  
There'll be clouds from time to time  
You weather through the pain  
By dancing in the rain  
On a busy avenue  
Forever sail the ocean blue  
Anywhere, oh anywhere  
Is everywhere with you

It's not a case of time or place  
It's just a state of mind  
Cause any place without your face  
Is just a waste of time

So hold your hand in mine  
True love is hard to find  
Guard it as it grows  
Precious as a rose  
We'll always feel brand new  
No matter where we travel to  
Cause, anywhere, oh, anywhere  
Is everywhere with you  
I'm everywhere with you
