

Fly

Derek Ryan

For so long you've been holding on
Smiling all the way
Can't believe you're gone
In your eyes the sorrow strange to find
Ever fading light
Now the memory is paining set you free

Fly, fly away
And with you we're remember my name
Good Bye perfect days
Now I'm left with words I'll never get to say
Fly away

In my dreams I feel your presence near
Left all milliners cry as many tears
On the road to a future made of gold
Someone takes your weird
In lead you to a place I can't go

Now I know I touch your face again
And see those eyes of blue
You run your fingers through my hair
Like no one else can't do
There's no one like you
Until we meet again I'm always missing you
I'm crying now, crying now
As you fly

Fly away
And with you we're remember my name
This tears on my face
Now I left with words I'll never get to say

Fly, fly away
And with you we're remember my name
Good Bye perfect days
Now I left with words I'll never get to say
So fly away...
