

# Homeland

Derek Ryan

This is my homeland my heart is here  
These are the voices  
I long to hear  
No matter how far  
I may roam  
I have a homeland  
I have a home  
I have a homeland  
I have a home

When the sun goes down and the evenin' light  
Moves like a ghost to starry night  
A serious twinkles to hypnotize  
It's good to sit and realize

This is my homeland my heart is here  
These are the voices  
I long to hear  
No matter how far  
I may roam  
I have a homeland  
I have a home  
I have a homeland  
I have a home

I love our stories and the tellers gift  
I love the lonesome pipers drift  
No greener fields do I need to see  
These simple things they comfort me

This is my homeland my heart is here  
These are the voices  
I long to hear  
No matter how far  
I may roam  
I have a homeland  
I have a home  
I have a homeland  
I have a home

This is my homeland my heart is here  
These are the voices  
I long to hear  
No matter how far  
I may roam  
I have a homeland  
I have a home  
This is my homeland my heart is here  
These are the voices  
I long to hear  
No matter how far  
I may roam  
I have a homeland  
I have a home  
I have a homeland  
I have a home  
I have a homeland

I have a home
