

# It Won't Rain Forever

Derek Ryan

Grandma, tell me why  
It's rainin' in your eyes  
You always have a smile for me  
Son, I shed a tear  
'Cause I can't have you here  
But when I feel you near, I see

It won't rain forever  
We'll find the sun together  
Winds won't last  
The storm will pass  
And it won't rain forever

Every day I see the proof  
Hope lives on in you  
Your kindful soul and caring ways  
Together we're apart  
Let's lift each other's hearts  
In darkness, love will find a way

It won't rain forever  
We'll find the sun together  
Winds won't last  
The storm will pass  
And it won't rain forever

It won't rain forever  
We'll find the sun together  
Winds won't last  
The storm will pass  
And it won't rain forever  
No, it won't rain forever
