

Long Shot Love

Derek Ryan

Our roads were different
But pointing the same
We both found shelter
Together from the rain
There in the moment
Right there in the flood
No words were spoken
We just understood

It's a long shot love
We might just make it
It's a long shot love
I want to take it
They say we shouldn't try
They say it's you and I
Against the odds
It's a long shot love
But I bet on us

The storms will keep coming
Like they always do
But now we're together
We'll keep pushing through
There is a mountain
That we've got to climb
But nothing worth having
Is easy to find

It's a long shot love
We might just make it
It's a long shot love
I want to take it
They say we shouldn't try
They say it's you and I
Against the odds
It's a long shot love
But I bet on us

They say we shouldn't try
They say it's you and I
Against the odds

It's a long shot
Long shot love
Alright

It's a long shot love
We might just make it
It's a long shot love
I want to take it
They say we shouldn't try
They say it's you and I
Against the odds
It's a long shot love
But I bet on us

Ooh, I bet on us, baby

Oh yeah
Long shot love
