

# One Good Night

Derek Ryan

I'm never one to shy away whenever times get tough  
Keepin' my head down and sleeves rolled up  
A man can only work so hard and push himself so far  
We all need a little time to remember who we are

Oh but when I get my pay  
That's when I trade five workin' days

For one good night, one good night  
Yeah I'd trade five workin' days for one good night  
One good night, one good night  
Oh I'd do the work of ten for one good night

I've lived enough to know that I've barely lived at all  
When I finally left behind those schoolhouse brawls  
I laughed when I was told they'd be the best days of my life  
Waitin' on the speed to win and thinkin' they were right

Oh when I get my pay  
That's when I trade five workin' days

For one good night one, one good night  
Yeah I'd trade five workin' days for one good night  
One good night, one good night  
Oh I'd do the work of ten for one good night

Shake the dust off  
And I won't stop  
Till I remind myself I'm free  
I'm a workin' man  
That's not all I am  
Yeah tonight it's all on me

'Cos one good night, one good night  
Yeah I'd trade five workin' days for one good night  
One good night, one good night  
Oh I'd do the work of ten for one good night  
One good night, one good night  
Yeah I'd trade five workin' days for one good night  
One good night, one good night  
Yeah I'd do the work of ten for one good night  
That's right

Oh one good night, one good night  
Ooh yeah yeah yeah  
One good night
