

## You Waltzed Yourself

Derek Ryan

The first time I touched you as we danced together  
I felt this feeling inside  
Your eyes met mine as the music played soft  
And I heard you say, would you love me tonight?

And you waltzed yourself right into my life  
And you came just in time love was nowhere in sight  
As we held each other and danced through the night  
You waltzed yourself right into my life

The jukebox was playing an old fashion waltz  
As you whispered, please, hold me tight  
I need someone to love me forever  
Would you be my partner for the rest of my life?

And you waltzed yourself right into my life  
And you came just in time love was nowhere in sight  
As we held each other and danced through the night  
You waltzed yourself right into my life  
As we held each other and danced through the night  
You waltzed yourself right into my life
