

I Wanna Marry You All Over Again

Derek Webb

I wanna marry you all over again
I wanna meet you and I wanna be friends
I wanna chase you all the way to Tennessee
I'll meet your parents at the airport bar
I'll take you out in my rental car
I wanna court you on the record label's dime

[Chorus]

come on baby let's go back to the start
take it back sugar then gimme your heart
don't you know baby I would do it all over again

I wanna buy you an old upright
I wanna accidentally stay all night
I wanna read the Bible and I wanna make out
I wanna marry you all over again
I wanna fall in love and say we're just friends
I wanna race you all the way to Kansas City

[Chorus]

I wanna give you a diamond ring
and then we'll run into my ex-girlfriend
oh, I wanna sing songs while the sun's going down
