

Reputation

Derek Webb

I know I always let everybody down
I know I've got a bad name in this town
'Cause my last friend stopped calling months ago

I know I always make you wait around
I know the way my promises must sound
And even though you've heard it all before
Darlin' could you listen just once more

I've got a reputation with everyone
But I don't want one with you

I know you know me well enough by now
And you're loving me as well as you know how
But I need one more chance to let you down
'Cause no one else will give it to me now

With you, I'm so glad to get into
A bad situation 'cause nothing makes us close
Nothing like a little incarceration
