

Angel

Derez De'Shon

Vera, you know I did that for you
Especially for you baby
Turn up one time, hey

I can tell that you done been through a lot
But to me you still shining like a star, girl
Don't worry 'bout what you not
And focus on everything that you are baby
You the first angel that I ever seen
And I'm praying to God you won't spread your wings
And fly away from me

Keep doing what you doing, nothing wrong with it
Everything you got, you got on your own with it
Bitches hatin' but you gettin' paid
Every time you hit the stage, gon' get it
They don't know what you been through
They don't know that you in school
They don't know you got them kids with no baby daddy
You ain't know niggas was leavin'
And your life ain't getting easy
You did what you had to do and you made it happen
I can tell, I can tell, you go through the most
But keep a smile your face, you don't let it show
Money in the air, money on the floor
You do your thing on the pole

And you so beautiful, beautiful babe
Look what you do to me babe
I promise to God if you ever get lost
I'ma come look for you babe

I can tell that you done been through a lot
But to me you still shining like a star, girl
Don't worry 'bout what you not
And focus on everything that you are baby
You the first angel that I ever seen
And I'm praying to God you won't spread your wings
And fly away from me

It look like you had a long day
Or got a lot on your mind
I hope you don't take this shit the wrong way
But when you cry baby you so fine
Been through so much, don't know who to trust
And you been hurt more than once so you afraid of love
And you got low self-esteem, no kisses and hugs
But you so beautiful babe
A thought of certain love is a daddy
And you ain't never had one
But you been looking for him in all of these niggas
Now you sick and tired of 'em, dealin' with your last one

But you so beautiful, beautiful babe
Look what you do to me babe
I promise to God if you ever get lost
I'ma come look for you babe

I can tell that you done been through a lot
But to me you still shining like a star, girl
Don't worry 'bout what you not
And focus on everything that you are baby
You the first angel that I ever seen
And I'm praying to God you won't spread your wings
And fly away from me

Especially for you baby
